Gary,

I spoke with Philip at US Ecology, Frac 4048 analysis went well, he is writing up the approval right now. I will bug the CSR later this afternoon for paperwork. The PO for 4048 is already done so we should be able to ship just as soon as the paperwork is finalized on US Ecology's part and they can get a vac truck around. The second load out of drums is also in the works. I should have that information by noon today. ST1 is tentatively scheduled for next Friday May 8th. Clean Harbors cannot lock this day in until a PO has been issued. I assume a PO has not been issued because we don't have TCEQ approval yet. I know we did not as of yesterday. I believe that is it for now.

Thanks,

Beth Crawford
